- Deployed eSNAP for initial extramural pilot.
- Updated Style Sheet/Status User Interface look and feel.

Items Resolved in Release 2.0

Identifier	Description
CMN3505	J2EE NIH eRA Commons' logging on page using Netscape 4.0 or IE 4.7 (format off).
CMN4185	New Registration: Print out document has IPF Code (not aligned with other fields).
CMN4234	Zip code required for non-U.S. countries.
CMN4749	Under account Usage, the total number of logons are not updating properly.
CMN4804	Animal and Human Subjects not saving correctly.
CMN4834	Change Affiliation Screen did not have a Screen ID assigned.
CMN5009	Due Date field not properly displayed on Type 5 summary result.
CMN5013	Cancel Button does not function correctly on Change Affiliation.
CMN5068	Screen displays the data elements in the Proposal Results report. The Department, Division, and School names are missing on the Summary Results.
CMN5124	AO can create an SO account. This should not be possible.
CMN5127	Incorrectly pulling business office address at MIT.
CMN5150	Timeout session took user to secondary login screen.
CMN5151	PPF Degrees Minor field displays in different font.
CMN5168	Due Date on Search Type 5 is mislabeled.
CMN5234	Click Edit Account as an AA causes error.
CMN5236	IPF does not allow the user to enter a state when selecting Canada and the Country.
CMN5238	Personal Profile/Degree update potentially defaulted to incorrect degree code.
CMN5254	Registration of a foreign (country) institution requires the user to enter a zip code.
CMN5284	List of Publications screen does not contain a screen ID.
CMN5288	When you incorrectly type in userid or password on home page, it refreshes but right justifies the userid/password.

- Updated System email messages.
- Provided Notice of Grant Award link on Proposal Status Detail.
