

Changes Scheduled for CGAP Release 1.2.1

Bug fixes and enhancements to TEST on April 19

Test database was refreshed in late March with production data.

Ticket #	Description
14994	Include validation on Contact Information if tag is left empty.
15040	Exchange System is validating the OrganizationDUNS which is not mandatory.
15079	Implement sup spec 1.2.1.4.2. Did not get expected error message when using an account which is not affiliated with the organization.
15080	Implement sup spec 1.2.1.4.6 to give expected error message.
15082	Fix Error Description misspelling in "The RFA title must be entered if the response to RFA checkbox is checked and/or if the RFA number has been entered".
15083	Implement sup spec 1.2.1.4.3 Name-Middle Initial Warning message.
15084	Provide correct error messages related to Primary Project Site information.
15086	Implement sup spec 1.2.1.4.3 Name-prefix got an error message.
15087	Implement sup spec 1.2.1.4.2 to provide correct error message when input an incorrect DUNS number.
15212	Grant Image bookmark is displaying 'Progress Report' instead of 'Preliminary Studies'.
15218	Implement sup spec 1.2.1.4.2 to provide get expected error message when using an account which is not affiliated with the organization.
15317	Implement sup spec 1.2.1.5.13.5.3 to provide correct error message related to Req48-MailStopCode.
15350	Implement sup spec 1.2.1.1.2.1 when validating VertebrateAnimalUsedQuestion, VertebrateAnimalsUsedQuestion was true and AssuranceNumber +IACUCApprovalPending to provide expected result.
15412	Implement sup spec 1.2.1.4.1 and fix incorrect error message when submitted an incorrect DUNS #.
15414	Implement sup spec 1.2.1.4.2 to give expected error message when using an account which is not affiliated with the organization.
15429	NoInventions tag in Application XML is not taking 0 values for Type 2 Applications.
15508	Java error when all key persons have empty roles and no account identifiers.
17499	Implement sup spec 1.2.1.4.6, the error message should only occur for role if not PI, if neither DUNS nor org name is provided.
17582	Check to see the name validation for key person produces 5 distinct error/warning conditions.
17665	Make PI/SO e-mail notification configurable so it can be turned off when testing.
17676	Provide more specific description in error message when mismatch between PI contact information and their Commons account occurs.

Ticket #	Description
17763	Ignore embedded or leading or trailing spaces when comparing PI contact data with the Commons.
17704	Add degree validations.
17811	New error messages for Key Person (1.2.1.4) and Contact information (1.2.1.5.15.5) as specified in eRA CGAP Supp Spec, version 1.4.1.
17812	Ignore spaces and punctuation in CGAP when comparing phone numbers.

Bug fixes and enhancements to TEST on May 5

Ticket #	Description
17705	Different Organization Identifier on Information Request Message. Changed organization identifier on Information Request Message from IPF code to DUNS number.
17809	Enhancements to Messages. Changes to messages are specified in eRA CGAP Supp Spec, Version 1.41: In Ticket Request and Person Info Request, new error message on Commons user ID. Added validation to Organization Identifier in Ticket Request. In Information Request Response Message, clarified that organization identifier is now DUNS, not IPF, and removed DUNS as separate response element. Additional Ticket Request change specified in supp spec, version 1.38: Allow revisions to be accepted
17810	CGAP derived database settings for appl type code.
18026	Provide new error message in Supp. Spec 1.2.1.4.2 "Provide Commons Username for PI/PD" AccountIdentifier must be specified for the PI/PD.

Bug fixes and enhancements to TEST on May 7 or 10

17697	Grant Image Generation for CGAP. Populate the Table of Contents with page numbers that accurately reflect the pages in the grant image, and add a consistent set of page numbers across all pages of the application (Supp Spec, section 11.1.1, Special Considerations for the Table of Contents; section 11.1, Style and Layout; section 11.1.8, Bookmarking). Use sample layout for grant image for 398 form page 4 and 5 for detailed budgets (Supp Spec, section 11.1, Style and Layout). In Key Personnel section (page 2), names should be listed last name first. (Supp Spec, section 11.1.3, Special Considerations for Page 2) All changes in Supp Spec versions 1.40 and 1.41
17707	Generate grant image as part of validation service. Provide the ability to generate the grant image of a submitted application after running the application through the validation service with no validation errors. Provide a secure mechanism (web service) for sending the grant image to the service provider technical contact. (Supp Spec, section 10.7)

The following bug fixes and enhancements were deferred to 1.2.2 release

17859	Revised wording on error messages. Revised wording on error messages, as reflected in Supp Spec version 1.41, Section 10.1,
-------	--

05/05/2004

	Application Validations, for 1.2.1.3.3.1, 1.2.1.3.3.2, 1.2.1.3.3.7, 1.2.1.3.3.9, 1.2.1.5.2.1
17860	Provide warning (instead of rejection) if Preliminary Studies not included on new application.
