Viewing the Score Matrix
The Internet Assisted Review (IAR) system is a web-based system to manage the process of electronic submission of critiques by reviewers. IAR expedites the scientific review of grant applications by standardizing the current process of critique and initial priority score submissions by reviewers via the Internet. IAR enables reviewers to submit their critiques and view each other’s reviews before the actual meeting. As a result, review meetings can contain more informed discussions because reviewers are able to read the evaluations entered by others prior to the review meeting (except where there is a conflict of interest).

Note: After the meeting has occurred, summary statements have been created, and the Council meeting held, data in IAR for that meeting is no longer needed in Commons. All IAR-related data (critiques, preliminary scores, etc.) is purged from the database (this is known as meeting closure). The closure date is six months after the date that the meeting is released in the IMPAC II Peer Review module.

IAR is accessed through the NIH eRA Commons, a web-based system that allows principal investigators (PIs) and central research administration offices to communicate and send information electronically.

Summary of Capabilities

IAR facilitates:

- critique/priority score submission and modification
- streamline voting
- critique combination/merging to create summary statement drafts

IAR provides you with the ability to:

- manage accounts, passwords, and registration for reviewers
- set and modify deadlines for critique submission, end of Read phase, and an optional post-meeting Edit phase
- block specific reviewers from accessing critiques from other reviewers
- submit critiques in one of two formats (Word *.doc or plain text *.txt) and have them stored centrally
- update submitted critiques before the meeting
- generate a preliminary report of upper and lower scores
- post streamlining votes
- generate a pre-summary statement body containing the critiques for an application formatted to comply with IMPAC II summary statement standards
- use merged critiques (multiple critiques formatted into one document) as the draft summary statement body text and download the merged document to your local computer
Logging In and Out

Introduction
IAR is a web-based application. Any user with a web browser (Internet Explorer 4.0 or greater or Netscape 3.0 or greater) and Internet access can log in. Other web browsers are also supported, but some functionality may be lost. You can successfully log in to IAR using your IMPAC II account username and password. No separate eRA Commons account is required.

Special Notes Regarding the Web Browser
In order to use the functionality of this module, you must enable Cookies and JavaScript on your browser. Additionally, make sure that the browser is not set for automatic password completion. For instructions on making these changes, please check your browser’s help text.

Please use the navigation buttons and hyperlinks provided in the IAR interface instead of the browser buttons to move through the module pages.

Session Expiration
Your IAR session expires after 30 minutes of inactivity. If you know you won't need to use the system for an extended period of time, you should close your web browser window to log out. If your session expires while IAR is still open, you will experience errors or lost functionality in the system (such as disappearing buttons, Internal Server Error 500, screens displaying with no data, or prompts to log in again). If any of these problems occur, close your web browser window and then reopen it to log in and start a new session.

Logging In to IAR
1. Launch your web browser.
2. Enter the following URL in your browser’s Address/Location field: http://impacwebdev2.oer.od.nih.gov:8089/commons/ and press Enter. The eRA Commons Home page opens.
3. In the Username field, type your username and press Tab to move to the Password field.
4. Type your password and press Enter or click Login.
5. Click the IAR tab to open the IAR List of Meetings page (IAR0001). See Viewing Meeting Information on page 4 for more information.

Concurrent Log Ins
You may be logged in to the eRA Commons for only one session at a time. If you attempt to log in to another session (using a second browser instance), the system gives you the option of either terminating the first session or canceling the request.

Password Expiration Notification
For security purposes, eRA Commons user passwords expire and must be reset. If your password is about to expire, a "password close to expiration" message is generated when you log in. If you get this notification, you will be directed to select a new password.

Printing Screens
All web pages in IAR can be printed using your browser's standard print feature in order to provide a hard copy report of what you see on the screen.
Logging Out

Logging out of the eRA Commons ends your current session. The top of each page contains a Logout hyperlink.
Setting Up Meetings in Peer Review

In order to allow reviewers to access a meeting and submit critiques in IAR, you must first complete the following functions in the IMPAC II Peer Review module:

- assign reviewers to applications
- organize the meeting
- error check for simultaneous conflicts and assignments

Viewing Meeting Information

The List of Meetings page provides details (display-only) about all your meetings.

1. Log on to IAR as described in Logging In to IAR on page 2.

The meeting information on this page is listed in Table 1.

Table 1 List of Meeting Page Information

<table>
<thead>

Managing Control Center Information

Introduction

After you set up meeting information in Peer Review, access the IAR Control Center to manage your meetings and reviewers. The Control Center displays each reviewer’s name, email address, IAR user name, and indicators for the following: account active, in roster, enabled, blocked, etc.

Use the Control Center to

• enable the meeting by setting dates for the different IAR phases
• enable reviewers to use IAR to submit their critiques
• block or unblock reviewers from reading critiques before they have submitted their own

1. Log in to IAR as described in Logging In to IAR on page 2.
2. Select the View Control Center hyperlink for the desired meeting. The Control Center page (IAR0002) opens for the selected meeting.

Viewing Control Center Information

The Control Center page is divided into three sections:

• Checked Reviewer(s) Options. See Enabling/Disabling Reviewers on page 7, Blocking/Unblocking Reviewers from Reading Critiques on page 7, and 4. Click the Back to Control Center hyperlink to return to the IAR Control Center.

• Allowing/Disallowing Telephone Reviewers on page 8 for more information about the various options in this section.

• IAR Related Dates/Times. See Setting IAR Phase on page 6 for more information.

• Reviewers in the Meeting. The columns in this section are described in Table 2.

Table 2  Reviewers in the Meeting Section Information

<table>
<thead>
<tr>
<th>Column</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select All/None</td>
<td>Check box to select or clear reviewers for an action. The check box in the column heading lets you select/clear all reviewers at once. Note: A check box is provided only for reviewers who have been added to the meeting roster and who have a MLG-type email address listed in their person profile information.</td>
</tr>
<tr>
<td>Reviewer Name</td>
<td>Last name, first name of the reviewer. A (T) next to the name indicates that the reviewer is a telephone reviewer.</td>
</tr>
<tr>
<td>Email</td>
<td>The email address of the reviewer. The address is in the form of a hyperlink so that an email can be sent to the reviewer. If this column displays &quot;Update MLG&quot; if the MLG address is missing in the reviewer's person profile.</td>
</tr>
<tr>
<td>User Name</td>
<td>The reviewer user name as listed in the eRA Commons.</td>
</tr>
<tr>
<td>Active Account</td>
<td>This column indicates (Y/N) if the eRA Commons account of the Reviewer is active or not.</td>
</tr>
</tbody>
</table>
### Column Description

<table>

</thead>
<tbody>
<tr>
<td>In Roster</td>
<td>This column indicates (Y/N) if the reviewer is listed in the meeting’s roster.</td>
</tr>
<tr>
<td>E</td>
<td>This column indicates (Y/N) if the reviewer is enabled to use IAR for this meeting.</td>
</tr>
<tr>
<td>B</td>
<td>This column indicates (Y/N) if the reviewer is blocked from reading other critiques if (s)he did not submit their own.</td>
</tr>
<tr>
<td>T</td>
<td>This column indicates (Y/N) if a telephone reviewer is allowed to view all critiques (as opposed to only the reviewer's own assignments).</td>
</tr>
</tbody>
</table>

### Setting IAR Phase Dates

Before reviewers can be enabled to use IAR, you must set the start and end dates for the Submit and Read phases (and the optional Edit phase) in the IAR Control Center.

The following phases are available in IAR:

- **Submit phase**—Time period when reviewers submit critiques for their assigned applications. During this phase reviewers only see their assigned applications. The phase end date is the Critique due date.

  **Note:** For the pilot release of IAR, reviewers are allowed to submit unassigned critiques and will therefore see all applications.

- **Read phase**—Time period after the Submit phase (the Submit phase end date determines the start of the Read Phase). During the Read phase, except where in conflict or blocked, reviewers see all applications and may read all critiques. At the end of the Read phase, the actual meeting is usually held.

- **Edit phase**—You determine whether or not to hold the optional Edit Phase which follows the Read phase. In this phase, reviewers correct/resubmit their critiques based on comments in the meeting or can post critiques for unassigned applications. At the end of the phase, the meeting in IAR goes back to Read Phase until assignments are manually purged or the Assignment Purge date is reached (the purge date is set automatically for 15 days after the meeting release date). After assignments are purged, reviewers lose access to the meeting. You continue to have access for the purpose of preparing summary statements and reading critiques until the meeting is closed to IAR (the closure date is set automatically for six months after the meeting release date). If an Edit phase end date is not set, there is no Edit Phase.

- **SS Prep phase**—When summary statements are being prepared at the end of the Read phase (or at the end of the optional Edit phase) SS Prep will be listed as the current phase to indicate that you are preparing the summary statements. This phase is not visible to reviewers. When the meeting is in this phase, for the reviewer it is listed as being in the Read phase.

**Note:**
All dates must be in the proper date/time format: MM/DD/YYYY HH:MM AM.

Dates must be in sequential order based on the phases: The Read phase end date must be later than the Submit phase end date and the Edit phase end date (if entered) must be later than the Read phase end date.

1. Access the Control Center for the desired meeting as described in *Managing Control Center Information* on page 5.
2. In the IAR Related Dates/Times section, click the **Edit** hyperlink to open the Edit IAR Related Dates page (IAR0006). All end dates that are already set for the Submit, Read, and Edit phases are listed in the corresponding fields.
3. Enter the dates and times for the desired phases.
4. Click **Submit** to view the information that you entered. Click **Continue** to confirm the submission.
Enabling/Disabling Reviewers

Use the Control Center to enable reviewers to use IAR. Enabled reviewers receive a registration notification by email which provides full information about registering and/or logging on to IAR. By default, enabled reviewers are blocked from reading critiques on applications where they did not submit their own critique, and telephone reviewers are only able to read critiques for their assigned applications. Defaults for these options can be changed via the Control Center (see Blocking/Unblocking Reviewers from Reading Critiques on page 7, and Allowing/Disallowing Telephone Reviewers on page 8 for more information). Disabling reviewers removes their access to the specified meeting.

Note: Reviewers in the meeting must be on the Committee Management Meeting Roster before they can be enabled for IAR.

1. Access the Control Center for the desired meeting as described in Managing Control Center Information on page 5. The E column indicates (Y/N) if the reviewer is enabled (additional reviewer information listed in the Reviewers in the Meeting section is described in Table 2 on page 5).

2. Verify that IAR phase dates are already set (reviewers cannot be enabled to use IAR before the Read and Submit phase end dates are set). See Setting IAR Phase Dates on page 6 for more information.

3. To enable reviewers to use IAR:
   a. Select the check box next to the desired reviewer(s).
   b. Click the (E) Enable for this meeting... hyperlink. The Control Center—Enable Reviewers for IAR Validation page (IAR0003) opens.
   c. Click Submit to confirm the request. IAR sends an email registration invitation to reviewers without active accounts and sends an email with a user name and link to the eRA Commons home page to reviewers with accounts.

4. To disable reviewers from using IAR:
   a. Select the check box next to the desired reviewer(s).
   b. Click the Disable, revoke reviewer access... hyperlink. The Control Center—Disable Reviewers for IAR Validation page (IAR0003) opens.
   c. Click Submit to confirm the request. IAR removes the reviewer’s access to the meeting.

5. Click the Back to Control Center hyperlink to return to the IAR Control Center.

Blocking/Unblocking Reviewers from Reading Critiques

Reviewers generally submit critiques for their assigned applications during the Submit phase. If a reviewer misses the due date and fails to submit a critique during this phase, by default the reviewer is blocked and cannot read other critiques until they submit their own. Once the critique is submitted, the system automatically unblocks the reviewer from reading on that application. Use the Control Center to change this default setting in IAR and unblock either selected or all reviewers and/or block them again.

Note: Reviewers must be enabled before they can be blocked or unblocked. See Enabling/Disabling Reviewers for more information about enabling reviewers.

1. Access the Control Center for the desired meeting as described in Managing Control Center Information on page 5. The B column indicates (Y/N) if the reviewer is blocked (additional reviewer information listed in the Reviewers in the Meeting section is described in Table 2 on page 5).

2. To unblock reviewers and allow them to read other critiques before they have submitted their own:
   a. Select the check box next to the desired reviewer(s).
   b. Click the (B) Block from reading other critiques... hyperlink. The Control Center—Block Reviewers from Reading Critiques page (IAR0005) opens.
   c. Click Submit to confirm the request.

3. To block reviewers from reading other critiques if they have not yet submitted their own:
   a. Select the check box next to the desired reviewer(s).
b. Click the (B) Unblock from reading other critiques… hyperlink. The Control Center—Unblock Reviewers from Reading Critiques page (IAR0005) opens.

c. Click Submit to confirm the request.

4. Click the Back to Control Center hyperlink to return to the IAR Control Center.

### Allowing/Disallowing Telephone Reviewers

Telephone reviewers review applications via telephone and do not attend the actual meeting. By default, these reviewers only have the ability to read critiques on applications where they are assigned as a reviewer (regular reviewers may read critiques for all meeting applications). Use the IAR Control Center to grant or remove read permission for telephone reviewers to read all meeting critiques.

**Note:** Reviewers must be enabled in IAR and must be listed as telephone reviewers before their telephone reviewer option can be set.

1. Access the Control Center for the desired meeting as described in Managing Control Center Information on page 5. The T column indicates (Y/N) if the reviewer has read permission to read all meeting critiques (additional reviewer information listed in the Reviewers in the Meeting section is described in Table 2 on page 5).

2. To allow telephone reviewers to read all meeting critiques:
   a. Select the check box next to the desired reviewer(s).
   b. Click the (T) Allow Telephone Reviewers to read critiques… hyperlink. The Control Center—Allow Phone Reviewers to view All Critiques in the Meeting page (IAR0004) opens.
   c. Click Submit to confirm the request.
   d. Click the Back to Control Center hyperlink to return to the IAR Control Center.

3. To block reviewers from reading other critiques if they have not yet submitted their own:
   a. Select the check box next to the desired reviewer(s).
   b. Click the (T) Do not allow Telephone Reviewers to read critiques… hyperlink. The Control Center—Disallow Phone Reviewers to view All Critiques in the Meeting page (IAR0004) opens.
   c. Click Submit to confirm the request.
   d. Click the Back to Control Center hyperlink to return to the IAR Control Center.

4. Click the Back to Control Center hyperlink to return to the IAR Control Center.

### Viewing Application Information

The List of Applications page lets you view information about the applications in a meeting and provides access to actions such as submitting and viewing critiques. The data viewed on the List of Applications page is customized based on both the user (SRA/GTA or reviewer type) and the current IAR phase.

1. Log in to IAR as described in Logging In to IAR on page 2.

2. From the List of Meetings page, click the View List of Applications hyperlink (in the Action column) for the desired meeting. The List of Applications page (IAR0007) opens for the selected meeting. By default, the applications are listed in order of application number.

### List of Applications Page—Meeting Information

Meeting information, listed in Table 3, is displayed on the top of the List of Applications page and is the same for any of the IAR phases.

**Note:** All times are listed according to Eastern Standard/Daylight Savings Time.

**Table 3** List of Applications Page—Meeting Information
**Meeting Title**
The title of the meeting or the panel name if the meeting is a SEP.

**Meeting Identifier**
The meeting identifier is made up of seven fields: Council Date (in YYYY/MM format), IRG (SRG) Code, IRG (SRG) Flex Code, SRA Designator Code, SRA Flex Code, Group Code, Group Extension Code, and the Workgroup Number.

- An example of an SRG Meeting is 2002/10 PC-1 (01)
- An example of a SEP Meeting is 2002/10 ZRG1 SRG-F (GC) X 001

**Meeting Phase**
The current IAR phase for the meeting; Submit, Read, Edit, or SS Prep.

**Meeting Dates**
The dates that the actual meeting starts and ends.

**Critiques Due**
The date and time critiques are due. This is also known as the Submit phase end date.

---

**List of Applications Page—Link Information**

The various links on the List of Applications page (located directly below the meeting information) provide ways to navigate in IAR and various ways to view the application information. These links are described in Table 4.

<table>
<thead>
<tr>
<th>Link</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Back to List of Meetings</td>
<td>Returns you to the List of Meetings page. Use this link instead of using the browser's Back button.</td>
</tr>
<tr>
<td>View List by Reviewer</td>
<td>Lists the applications in ascending alphabetical order by reviewer last name.</td>
</tr>
<tr>
<td>View List by Application</td>
<td>This is the default view when you open the List of Applications page and lists the applications by application number.</td>
</tr>
<tr>
<td>View All Meeting Critiques</td>
<td>Opens Adobe Acrobat with a PDF file of all critiques for all applications in a meeting.</td>
</tr>
<tr>
<td>View Score Matrix</td>
<td>Shows the score matrix for applications in the meeting. See on page 20 for more information.</td>
</tr>
</tbody>
</table>

---

**List of Applications Page—Application Information**

By default, application information is sorted by last name of the PI with a secondary sort by application number (Activity Code/IC/Serial Number). Table 5 describes the column headings for the application information.

<table>
<thead>
<tr>
<th>Column</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Application</td>
<td>Lists the full application number. This column also provides a link to view all critiques. During the Submit phase, only a PDF link is available. If the Submit phase end date has passed, a link to a Microsoft Word format pre-summary statement body is listed (if a summary statement exists for the application).</td>
</tr>
<tr>
<td>PI Name</td>
<td>Lists the last name, first name of the principal investigator.</td>
</tr>
<tr>
<td>New PI</td>
<td>Indicates (Y/N) if the application is from a new investigator.</td>
</tr>
<tr>
<td>Title</td>
<td>Lists the project title of the grant application.</td>
</tr>
<tr>
<td><strong>Reviewer (Role)</strong></td>
<td>Lists the last name, first name of the reviewer and indicates the reviewer's role (primary, secondary, etc.).</td>
</tr>
<tr>
<td>---------------------</td>
<td>------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td><strong>Score</strong></td>
<td>The preliminary score for the application. If available, an average score for each application is listed.</td>
</tr>
<tr>
<td><strong>Submitted Date</strong></td>
<td>If a critique has been submitted, indicates the date and time that the critique was submitted.</td>
</tr>
<tr>
<td><strong>Note</strong></td>
<td>All times are listed according to Eastern Standard/Daylight Savings Time.</td>
</tr>
<tr>
<td><strong>Action</strong></td>
<td>Lists the various options available for the specific application (Submit, View, Delete)</td>
</tr>
</tbody>
</table>
You can submit critiques and scores for assigned reviewers during all IAR phases. Critiques cannot be submitted for unassigned applications.

**Note:**
Only critiques uploaded in Microsoft Word format (with a *.doc extension) or in plain text format (with a *.txt extension) can be submitted.

Critiques cannot be edited online and must be resubmitted if you want to make changes to a previously submitted critique. Critiques cannot be resubmitted during the Read phase.

The WP Greek font family is not supported during the conversion of uploaded critiques to Adobe PDF. In order to include Greek characters (for example, α or β) insert them as symbols within the Microsoft Word document.

1. Log in to IAR as described in *Logging In to IAR* on page 2.
2. From the List of Meetings page, click the **View List of Applications** hyperlink (in the Action column) to open up the List of Applications page (IAR0007).
3. Click the **Submit** hyperlink in the Action column for the desired application to open the Submit Critique and Preliminary Score page (IAR0011).
4. Enter the full path and filename (including extension) of the critique or click **Browse** button to locate the file.
5. If applicable, either a numeric score or a score code can be entered (see Table 6 for more information about the score code). A numeric score must be within a range of 1.0–5.0.
6. Click **Submit** to upload the file. The file is checked for the proper file type and is virus-checked.
7. IAR displays a validation message with an option to cancel or submit critique and score. Click **Submit** to finalize the submission and view a confirmation message that your critique and score were updated.

**Special Considerations for Review Criteria**

The following special considerations are part of the review criteria and need to be assessed by the assigned reviewers:

- protection of human subjects from research risks
- data and safety monitoring
- inclusion of women
- inclusion of minorities
- inclusion of children
- animal welfare
- biohazards
Submit Critique and Preliminary Score Page Information

Table 6 describes the information included on the Submit Critique and Preliminary Score page.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Viewing Critiques

View critiques during any IAR phase. When there is more than one critique to display, the critiques are merged into one file with each critique printed on a new page. You can view critiques in several ways:

- individual critiques
- all critiques for all applications in a specific meeting
- all critiques for a specific application
- all critiques submitted by a specific reviewer

1. Log in to IAR as described in Logging In to IAR on page 2.
2. From the List of Meetings page, click the View List of Applications hyperlink in the Action column to open up the List of Applications page (IAR0007).
3. To view an individual critique:
   - Click the View hyperlink in the Action column for the desired application. The critique is usually available in Adobe Acrobat PDF, but may be displayed in the original Word/text format if the conversion hasn't yet occurred.
4. To view critiques for all applications in a meeting:
   - Click the View All Meeting Critiques hyperlink located below the meeting information at the top of the page. An Adobe PDF document of all critiques for all applications is created. The critiques are listed in order of application number with a secondary sort on the reviewer assignment role.
5. To view all critiques submitted for a specific application:
   a. If not already selected, click the View List by Application hyperlink located below the meeting information at the top of the page.
   b. Click the View All Critiques hyperlink in the Application column for the desired application. An Adobe PDF document of all critiques for the application is created. The critiques are listed in order of reviewer assignment role.
6. To view all critiques submitted by a specific reviewer:
a. If not already selected, click the **View List by Reviewer** hyperlink located below the meeting information at the top of the page. The list is sorted by the reviewers last name (with a secondary sort by reviewer assignment role and a tertiary sort by the PI last name).

b. Click the **View All** hyperlink that appears in the Reviewer column for the desired reviewer. An Adobe PDF document of all critiques for the reviewer is created. The critiques are listed in order of reviewer assignment role.
Streamlining is the practice of identifying applications with low scores (scores in the lower half). Applications identified as lower half require little if any discussion at the review meeting and are coded as Unscored after the meeting. Identifying these applications prior to the meeting helps streamline discussions at the meeting.

Use the Score Matrix page during the Submit and Read phases to designate which applications should be categorized as lower half. The Score Matrix is available in two views—Show All Applications (the default view) and Show Lower Half Applications Only.

**Note:** Subprojects are sorted under the parent application (the applications are grouped by the parent PI name). The subproject itself lists the Core Leader name and not the parent PI name.

### Viewing the Score Matrix Page

1. Log in to IAR as described in *Logging In to IAR* on page 2.
2. From the List of Meetings page, click the **View List of Applications** hyperlink in the Action column to open up the List of Applications page (IAR0007).
3. Click the **View Score Matrix** hyperlink located below the meeting information at the top of the page. The View Score Matrix page (IAR0008) opens. By default, all applications are listed and sorted PI name.
4. To view lower half applications only:
   - Click the **Show Lower Half Applications Only** hyperlink.

Table 7 describes the information included on the View Score Matrix page.

**Table 7  Score Matrix Page Information**

<table>
<thead>
<tr>
<th>Column</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Application Number</td>
<td>Lists the application number (activity code/IC/serial). This column can</td>
</tr>
<tr>

<td>- <strong>LH/PI/AVG</strong> (lower half/PI name/average)—lists applications without lower half designation and without an average score first, then the lower half applications, then average score in</td>
</tr>
</tbody>
</table>
AVG

Lists the average score for applications that are scored with numeric scores only. The column can be sorted by applications with no average and no lower half designation first, then the average score in ascending order, and then all applications designated as lower half.

Scores

Lists the individual preliminary scores submitted for the applications.

## Designating Lower Half Applications

1. Open the View Score Matrix page as described in Viewing the Score Matrix Page on page 14.
2. To designate applications as lower half:
   a. Click the Designate Lower Half Applications hyperlink to open the Edit Score Matrix page (IAR0009). Applications with marked check boxes in the Lower Half column are already designated as lower half.
   b. In the Lower Half column, select the check box for the desired applications.
   c. If required, clear the check box for applications that should no longer be designated lower half.
3. Click Submit to save changes and view the updated page.
4. Click the Back to List of Applications hyperlink to return to the List of Applications page.
Summary Statements

After the Submit phase ends, IAR creates a file of merged critiques for each application in the meeting (this file is the pre-summary statement body and is in Microsoft Word format) which can be downloaded and saved locally. This document is a final goal of IAR and represents the starting point of the summary statement for SRA/GTAs. You can modify the file as needed and then import it into the Prepare Summary Statement screen in the IMPAC II Peer Review module.

Summary Statement Assembly

Critiques are merged in order of assignment priority (Primary, Secondary, Tertiary, Reader, Discussant, Unassigned) with one blank line between critiques. Critiques for subprojects are included in the parent grant pre-summary statement. Subprojects are sorted according the same order specified in the Order of Review in the IMPAC II Peer Review module.

Note: You will need to renumber your Order of Review in the IMPAC II Peer Review module before the pre-summary statement bodies are created in IAR.

Viewing Pre-Summary Statement Bodies

Pre-summary statement bodies are available after the Submit phase is ended.

1. Log in to IAR as described in Logging In to IAR on page 2.
2. From the List of Meetings page, click the View List of Applications hyperlink in the Action column to open up the List of Applications page (IAR0007).
3. In the Application column of the desired application, click the Word hyperlink to open a File Download window where you can either open the Microsoft Word file from its current location or save the file to your computer.
Reviewer Information

Use this information in this section, written for reviewers, to help your reviewers use IAR.

Creating/Accessing an IAR Account

Your SRA/GTA grants you access to use IAR to submit and view critiques for applications in meetings. When this happens, you receive an email informing you of your ability to access IAR. If you do not yet have an IAR account, the email directs you to create a new IAR account. If you already have an IAR account, you are directed to access the eRA Commons Login page.

To create a new account:

1. Click the hyperlink in the email to open the eRA Commons and the Create New Account page.
2. In the account form, enter the requested information noting the following:
   - If a field name is followed by an asterisk (*), it is a required field.
   - The username has a 6 character minimum and a 20 character maximum.
   - Passwords must contain a minimum of six characters. For additional protection, include a combination of letters and numbers.
3. Click Submit to enter the information. After your account information has been reviewed and authorized, you will receive a notification email containing the URL to the eRA Commons Login page.

To access IAR if you already have an IAR account or once you receive the notification email:

1. Click the hyperlink in the email to open the eRA Commons Login page.
2. Log in as described in Logging In to IAR on page 2.

Viewing Meeting Information

The List of Meetings page shows all the meetings where you have assignments and the meeting is in the Read, Submit, or Edit Phase. This is a display-only page; none of the information can be edited.

➢ Log in as described in Logging In to IAR on page 2.

The information on the List of Meetings page is listed in Table 1 on page 4 and is the same for both reviewers and SRAs/GTAs.

Viewing Application Information

The List of Applications page lets you view information about the applications in your meeting and provides access to actions such as submitting and viewing critiques. The data viewed on the List of Applications page is customized based on the current IAR phase and the type of reviewer you are (regular, mail, or telephone). By default, the page initially shows only applications assigned to you but it provides access to show all applications in the meeting if your SRA/GTA has opened the meeting for unassigned critiques or comments to be posted.
From the List of Meetings page, click the View List of Applications hyperlink (in the Action column) to open up the List of Applications page (IAR0007) with your assigned applications.

When the meeting is in the Submit phase:
- Each application has a link for submitting a critique. If you have already submitted a critique, there are also links for deleting and viewing the critique.

When the meeting is in the Read phase:
- Based on the whether or not you have been permitted by your SRA/GTA to view the critiques of other reviewers, the list of available applications with either list only assigned applications or will list all reviewed applications.
- If you have not yet submitted a critique on an application and are blocked from reading the critiques of other reviewers, only the Submit option will be available for blocked applications.
- The other applications will each have a link for viewing critiques.
- If you are a telephone reviewer, the list of applications is based on whether your SRA/GTA has enabled you to read critiques for all meeting applications or limited you to reading critiques for assigned applications only.

When the meeting is in the Edit phase:
- Each application has a link for submitting a critique. If you have already submitted a critique, there are also links for deleting and viewing the critique.
- If you have not yet submitted a critique on an application and are blocked from reading the critiques of other reviewers, only the Submit option will be available for blocked applications.
- If you are a telephone reviewer, you can see all meeting applications but are only able to view critiques submitted by other reviewers if this option has been enabled by your SRA/GTA.

Note:
Mail reviewers can only see their own assigned applications.

By default, you are blocked from reading application critiques submitted by other reviewers before you submit your own critique. Telephone reviewers are only able to read critiques for their assigned applications. These defaults may be changed for selected reviewers by the SRA/GTA.

Applications with conflicts are marked COI and have no links available for submitting, deleting, or viewing a critique.

### List of Applications Page—Meeting Information
Meeting information, listed in Table 3 on page 8, is the same for both reviewers and SRAs/GTAs.

### List of Applications Page—Link Information
The links at the top of the application list table provide ways to navigate in IAR and various ways to view the application information. The links are described in Table 8.

<table>

<td>All</td>
</tr>
</tbody>
</table>
Show Assigned Applications | Shows all the applications that are assigned to you. This is the default view when you first access the List of Applications page. | Submit

View My Critiques | Opens Adobe Acrobat with a PDF file of all critiques that you have submitted so far. | All

List My Assignments Only | Shows the applications that have been assigned to you. | Read, Edit

View Score Matrix | Shows the score matrix for applications in the meeting. See Viewing the Score Matrix on page 20 for more information. | Read

View All Meeting Critiques | Opens Adobe Acrobat with a PDF file of all critiques for all applications in a meeting. | Read, Edit

View all Critiques for Assigned Applications | Opens Adobe Acrobat with a PDF file of all critiques you have submitted for your assigned applications in a meeting. | Read, Edit

View All Critiques | Opens Adobe Acrobat with a PDF file of all critiques submitted for a specific application in a meeting. | Read, Edit

---

**List of Applications Page—Application Information**

Application information, listed in Table 5 on page 9, is the same for both reviewers and SRAs/GTAs.

**Viewing SRA/GTA Contact Information**

Contact information is provided as a convenient way to contact your SRA/GTA for discussing issues that may arise. (for example, when there are assignment discrepancies or conflicts of interest with an application viewed in IAR).

1. Click the SRA/GTA hyperlink located at the bottom of the List of Applications page to open the SRA/GTA Name and Contact Information page (IAR0010). The page displays SRA/GTA name, telephone number and email address.
2. The email address is in the form of a hyperlink so that an email can be sent to the SRA/GTA. Click the hyperlink to open your default email program.

**Submitting Critiques/Scores**

You can submit critiques and scores for your assigned applications during the Submit and Edit phases. During the Read phase, only reviewers who have missed the due date may submit late critiques. Submission information is the same for both reviewers and SRAs/GTAs.

See Special Considerations for Review Criteria on page 11 and Submit Critique and Preliminary Score Page Information on page 12 for more information.

**Viewing Critiques**

Your ability to view critiques depends upon the type of reviewer that you are and the current IAR phase that the meeting is in. Critiques cannot be modified during the Read Phase and you will not be able to view critiques and scores for applications where you have conflicts of interest. When there is more than one critique to display, the critiques are merged into one file with each critique printed on a new page.

Regular reviewers—During the Read phase, you can usually view critiques posted by other reviewers to help you prepare for review meeting discussions. However, if you have not submitted your critique during the Submit phase,
your SRA/GTA can block you from reading other critiques until you have submitted your own. If you are blocked from reading, you must submit your critique before you will be able to read other critiques.

Telephone reviewers—By default, you are allowed to view critiques and scores for your assigned applications only. However, your SRA/GTA can enable you to view all meeting critiques (except for applications where there is a conflict of interest).

Mail reviewers—You will not be able to view critiques that are submitted by other reviewers.

During the Submit phase, you can view critiques you have submitted from the List of Applications page, either one at a time or merged into one file.

During the Read Phase, you can view critiques in several ways:

- all critiques for all applications in a specific meeting
- all of your own critiques for a specific meeting
- all critiques for your assigned applications
- all critiques for one application merged into one file

**Note:** Subprojects are treated like all other applications. For example, if you are assigned to two subprojects and don't submit a critique on time for one of them, if the SRA/GTA blocks you from viewing other critiques you only will be blocked from viewing critiques for the specific subproject that doesn't yet have a critique submitted.

1. From the List of Meetings page, click the **View List of Applications** hyperlink (in the Action column) to open up the List of Applications page (IAR0007).
2. To view an individual critique (during all IAR phases):
   - Click the **View** hyperlink in the Action column for the desired application. The critique is usually viewed in Adobe PDF, but may be displayed in the original Word/text format if the conversion hasn't yet occurred.
3. To view critiques for all applications in a meeting (during the IAR Read/Edit phases only):
   - Click the **View All Meeting Critiques** hyperlink. An Adobe PDF document of all critiques for all applications is created. The critiques are listed in order of application number with a secondary sort on the reviewer assignment role. Critiques for applications where there are conflicts of interest are omitted from the document.
4. To view all critiques that you have submitted (during all IAR phases):
   - Click the **View My Critiques** hyperlink. An Adobe PDF document of all your critiques is created.
5. To view all critiques that you have submitted for your assigned applications (during the IAR Read/Edit phases only):
   - Click the **View All Critiques for Assigned Applications** hyperlink. An Adobe PDF document of all your critiques is created.
6. To view all critiques submitted for a specific application (during the IAR Read/Edit phases only):
   - Click the **View All Critiques** hyperlink that appears under the Application column for the desired application. An Adobe PDF document of all critiques for the application is created. The critiques are listed in order of reviewer assignment role.

**Viewing the Score Matrix**

The Score Matrix page is used by the SRA/GTA during the Submit and Read phases to designate which applications should be categorized as lower half. Your ability to view the Score Matrix page depends upon the type of reviewer that you are and the current IAR phase that the meeting is in. The Score Matrix is available in two views—Show All Applications (the default view) and Show Lower Half Applications Only.

Regular reviewers—The score matrix page is available (display-only) during the Read phase, but only for applications where there is no conflict of interest. If you are blocked by your SRA/GTA from reading critiques for
applications where you haven't yet submitted a critique, you are also blocked from seeing scores for those applications.

Telephone reviewers—You can see only your own assignments in the Score Matrix page.

Mail reviewers—You do not have access to the Score Matrix page at all.

**Note:** Subprojects are sorted under the parent application (the applications are grouped by the parent PI name). The subproject itself lists the Core Leader name and not the parent PI name.

See *Viewing the Score Matrix Page* on page 14 for information about accessing the Score Matrix page.

Score Matrix page information is the same for both reviewers and SRAs/GTAs and is listed in Table 7 on page 14.
