

# electronic Competitive Grant Application Process

**CWG**  
**eCGAP/Grants.gov Update**  
**September 22, 2004**

# Past eCGAP Pilots

- Received about 45 applications to date in 3 completed pilots
- June 1 receipt date
  - 17 new, simple, modular
- July 1 receipt date
  - 7 revised, modular competing continuation
  - 6 modular, competing continuation
  - 1 full-budget, competing continuation — First full budget received
- Following e-applications through their life cycle

# Current Pilot: Oct-Nov 2004 Receipt Dates

- Pilot began September 13
- Unlimited modular simple grant applications
  - Estimate about 50 for each receipt date
- Full-budget apps in Pilot 2
  - Limited to 5 per service provider
  - Improvements made based on Pilot 1
- 6 Service Providers will participate
- “Dress Rehearsal” — Refine processes in preparation for production

# Future eCGAP Pilot Plans

## ■ RFA Pilot

- Current code base has ability to accept simple applications in response to RFA's
- Identifying candidate RFAs
- Looking to reduce processing CSR and move application directly to IRG for review
- Peer review redesign focus groups underway

## ■ Feb/March 2005 Pilot

- First pilot for supplements
- Full-budget applications in Pilot 3
- Ability to handle some corrections (addendums) after receipt

# eCGAP Plans for Production

- January 2005 declare production for:
  - Simple (R01, R03, R21)
  - Types:
    - New (Type 1)
    - Competing Continuations (Type 2)
  - Revisions
  - Modular budget

# Outreach and Support for eCGAP Production

- eRA December 2004 symposium
  - Focus on electronic receipt
  - Educate internal NIH staff
  - Service Providers present their products and services
  - eCGAP technical meeting for Service Providers
- Outreach to grantee community
  - Applicant Orientation Package
  - Service Provider survey
- Refining support for Service Providers
  - eRA Help Desk taking a greater role
  - Expanding monitoring and reporting on eXchange activity
  - Re-organized eRA Partnership website
  - Developing orientation process for new Service Providers

# eRA/Grants.gov integration Accomplishments

- Submitted NIH-specific data analysis to supplement 424 Research and Related (R&R)
- Mapped 424R&R form elements to eRA database
- Defined business validations for grants.gov apps
- Completed initial system-to-system testing with Grants.gov
  - Calling Grants.gov Web services with security in place
  - Used SF424 test applications

# eRA/Grants.gov Integration

## Next Steps

- Integrate Grants.gov Web service calls with the eRA eXchange
- Implement business validations for grants.gov applications
- Create mechanism to report warnings and errors back to applicants via the Commons
- Grants.gov finalize NIH-Specific forms and schema
- Generate grant image (424RR-based format)
- Finalize and post applicant package
- Test using “dead” data
  - CWG member volunteers

# Outgoing Transactions

- Electronic Notice of Grant Award
  - First major outgoing transaction for the eRA eXchange
  - Requirements analysis underway
  - Development to begin by end of 2004
  - Pilot in early 2005
- Other simple transactions
  - Status of application through cycle
  - Others?

# eRA eXchange Activities

- eCGAP Refactoring release
  - Decoupled eRA eXchange and eCGAP process
  - Important to stability and scalability
- New Test environment for Service Providers that integrates eRA eXchange and Commons Demo
- Adopting ebXML standard for trading partner registry and messaging
  - Critical as service providers and transactions increase
  - Evaluation task order underway
  - Begin ebXML construction phase in early/mid 2005
  - New transactions closer to ebXML standards
- Collaboration with NCRR for GCRC Progress Reporting

# Future Plans for 2005

- Expand types of grant mechanisms
  - SBIR/STTR
  - Training, fellowships, AREA grants, etc.
  - Complex program grants and subprojects
- Support corrections and addendums to applications post-receipt
- Enhancements to the grant image
  - 424RR as well as 398 (*topic for later today*)
- New transactions
  - eSNAP, eNAP, FSR, etc.
