## Version 4.7.0.11

### Release Notes

#### New Features

##### ***The Paper Option is Removed for File Uploads on Invention and Patent Reports***

For file uploads on Invention and/or Patent reports the paper option is no longer available. If a document was previously uploaded as paper type document, then there is still the ability to save the paper document. However, if the Invention and/or Patent report's file type is changed to another file type besides paper, then the ability to change the file type back to paper is no longer available.

##### ***Messages 260/ 5260, Provisional Patent Due to Expire, are Triggered Based on Specific Invention/Patent Criteria***

The messages 260/5260, *Provisional Patent Due to Expire*, are triggered based on all the following criteria being true:

1. The Invention report's status is not: *Record Voided*, *Transferred*, or *Not Elect Title*.

AND

2. The Patent report's status is *Institution Retains Rights*

AND

3. The **Provisional Patent Application Date** is populated

AND

4. The following Patent fields are not populated: **PCT Filing Date**, **Non-provisional Patent Application Date**, and **Patent Issue Date**

AND

5. Special Condition: Patent is not a parent Patent.

---

**NOTE:** If all Child Patents are voided, the Patent is not considered a parent Patent.

---

AND

6. The difference between the Provisional Patent Application Date and the present date is greater than ten months.

## **Fixes**

### ***The Correct Notes are now Generated in the Government Notes when an Invention is Transferred***

Previously when an Invention was transferred to another Institution, the government notes were not generated correctly.

This issue has been resolved.

### ***Suppressed Messages are now Automatically Unsuppressed after 30 Days***

Notification messages can be suppressed for thirty days by one or more users simultaneously. If the suppressed message is still valid after thirty days, it is unsuppressed. Previously notification messages that were suppressed were not unsuppressed after thirty days for all accounts.

This issue has been resolved.

### ***The DOE "S" Number now Appears when Exporting Invention and Patent Reports***

Previously the **DOC "S" Number** was not populated when exporting Invention and/or Patent reports that contained a **DOC "S" Number**.

This issue has been resolved.
