1 eRA Commons Personal Profile Module

The Personal Profile module in Commons is the central repository of information for all Commons registered users. It is designed so that individual eRA system users hold and maintain ownership over the accuracy of their own profile information. This profile information is then integrated throughout eRA's systems and used for a variety of agency business such as peer review, application data, and trainee data.

NOTE: You can delegate the authority to maintain your profile to other users within your institution.

The personal profile is divided into sections of information and includes:

- **Name and ID**: Personal information such as name, contact information, date of birth
- **Demographics**: Race, ethnicity, gender
- **Employment**: Current employment and past employment history
- **Reviewer Information**: Reviewer work address for those users performing tasks in IAR as a Reviewer
- **Trainee Information**: Trainee permanent address for those with Trainee roles using the xTrain module
- **Education**: Degree and Post-Graduate Clinical Training Information
- **Reference Letters**: Letters of reference submitted to NIH
- **Publications**: Access to MY NCBI, at which publications can be viewed

NOTE: Depending on your Commons role, you might not have access to all sections of the Personal Profile.

The information found in this user guide also is available as online help (https://era.nih.gov/erahelp/ppf).

1.1 Selecting a Profile to Edit

Any active Commons user can grant another active user the ability to enter his Personal Profile by delegating PPF authority. If you have been designated with this authority, you must select which profile you wish to access.

After selecting the **Personal Profile** tab from the Commons menu, you will be instructed to choose a profile for editing.

Select a name from the **Profile to Edit** drop-down list and click the **Select Profile** button. The profile of your selected person displays and changes made will be reflected on that profile.

To switch profiles, select the **Personal Profile** tab again and choose a different profile from the list.
1.2 **Personal Profile Summary**

The *Personal Profile Summary* page provides access to viewing and editing the different components of the Personal Profile.
1.2.1 Dashboard

The left side of the summary page contains the dashboard of user information including user name, ID, and a list of user roles; update and access information for the Personal Profile and for eRA Commons; and eRA Service Desk contact information.

**Personal Profile Information:**

- Name of the personal profile
- List of roles associated with the personal profile
- Person ID associated with the personal profile
Personal Profile Module User Guide

**Personal Profile Navigation Links**

The largest block of information in the left side column is the set of navigation links for each of the components of the Personal Profile.

- Name and ID
- Demographics
- Employment
- Reviewer Information
- Trainee Information
- Education
- Reference Letters
- Publications

Next to each link is a status indicator, providing a visual indication of whether all required fields for that component are complete. A green check indicates that the information is complete, while a red X informs that information is missing. The status indicators are updated each time you save the personal profile. Selecting a link opens the corresponding component of the personal profile in a read-only view mode.

**NOTE:** The links displayed in the left column vary depending on your user role. Not all profile components are available for all Commons users. If you are affiliated with multiple institutions and hold different roles at each, your profile will display the components applicable for all roles across affiliations.

**Update and Access Information:**

- **Profile Updated:** system displays date when the user last performed a save on the Personal Profile
- **Change your password:** Date when password will expire plus a link for accessing the Change Password feature

**eRA Service Desk Information**

Includes the hours, phone numbers, and web address for contacting and creating a ticket for system support.

**1.2.2 Main Section**

The main section of the Personal Profile Summary displays profile information for each component in expandable and collapsible tiles. Each component contains certain required information. If any of this information is missing from a section, a message displays across the top of the screen as well as in the header for the incomplete component.
You can expand the component tiles partially for viewing (read-only) or entirely for editing. Tiles can be expanded:

- By selecting the **View All** button to expand all components
- By selecting the **View** button in a specific header to expand that individual component
- By selecting the **Edit** button to update the component
Tip: If you are using Internet Explorer and a tile of the Personal Profile does not expand correctly, try clicking the Compatibility View button on your browser's address bar.

1.2.3 Personal Profile Online Help

Select any of the question mark icons ("?") within the Personal Profile to access content specific help. The help icons are located on the Personal Profile Summary page heading as well as within each component's heading and will lead you to a help topic specific to the icon you selected (e.g., the icon on the Name and ID heading opens the help topic pertaining to Name and ID component of the Personal Profile).
The online help is also accessible by entering the following URL into your browser: http://era.nih.gov/erahelp/ppf

1.3 What's the Difference Between View and Edit?

The Personal Profile provides you two ways to access your information: view mode and edit mode.

1.3.1 Viewing the Information in Your Profile

View mode provides a read-only summary of the information within a specific component of the profile. In view mode, not all maintained fields are displayed. There are several methods for viewing the components of your profile:

- Select a link from the dashboard on the left side of the Personal Profile Summary screen to view that component's summary
- Select the View button from the header of an individual component to view that component's summary (select Close to hide it). When you select View, the current topic collapses when the selected one expands.
- Select the View All button to display the summaries of all components of your profile (select Hide All to hide them)
1.3.2 Editing the Information in Your Profile

You can edit any available component of your profile by selecting the **Edit** button on the section's header. This expands the tile and displays the fields for editing. You can then update the information as necessary.

**NOTE:** Not all components can be edited. Those components do not have an **Edit** button.
Keep in mind that when you select the **Edit** button for a component, it places you in edit mode for all components of your profile. While in edit mode, you can continue updating the other components of the profile by selecting the **View** button for each one, which collapses the tile of the current component you are editing and expands the one you have selected.

As in the view mode, if you'd like to expand all tiles for editing at the same time, use the **View All** button at the top of the profile.

When you are done editing your profile, select the **Save All** button. This is the only method of saving the changes you've made. Selecting **Save All** keeps you in edit mode, so you can keep saving your work along the way.

**NOTE:** Hiding or closing individual components of the profile is not the same thing as saving the information. If you navigate away from the personal profile, your changes will be lost. You must select the **Save All** button to save your changes!
If you wish to discard your changes, select the **Discard Changes** button, then select **Yes** from the confirmation pop-up message. Keep in mind that any information you've added since the last time you hit **Save All** will be discarded when you hit the **Discard Changes** button!

Refer to the help topics for each individual profile component to see what fields are available for editing.
