1 What is xTRACT?

Extramural Trainee Reporting and Career Tracking (xTRACT) is a module within eRA Commons used by applicants, grantees, and assistants to create research training tables for inclusion in progress reports and institutional training grant applications.

Because xTRACT is integrated with Commons it is able to pre-populate some training data for training tables and reports by using xTrain appointment and related data. This includes trainee names, selected characteristics, institutions, grant numbers, and subsequent NIH and other HHS awards. xTRACT also allows the manual entry of data, for information not found in Commons or xTrain. This manually entered information is stored in xTRACT and can be re-used when preparing subsequent training table submissions.

If you are a Signing Official (SO), Administrative Official (AO), Business Official (BO), Principal Investigator (PI), or assistant (ASST) in Commons, you have access to the xTRACT module.

**IMPORTANT:** xTRACT is a tool for creating training tables. Tables generated in xTRACT must be attached to and submitted with the appropriate progress report or application. There is no *Submit* feature in xTRACT.

**POLICY:** Guide Notice [NOT-OD-16-007](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-007.html)
